BALSAM.

This valuable preparation has been before the public during the past nine years, and has wrought some of the most astonishing cures. The proprietor challenges the world to produce its superior as a remedy. It has gained a very wide popularity, and is eagerly sought for wherever its great curative virtues are best known.

It has proved infallible for Burns, Scalds, Frozen Limbs, Bruises, Sprains, Wounds of all kinds, Pains in the side, back or Shoulders, Piles, Corns, Chilblains, Chapped Hands, and Neck, Ague in the Face or Breast, Ear-Ache, Deafness, and Loss of Motion of Limbs, Felons, Erysipelas, Inflammation of the Eyes, Inflamed Irritation of the Skin, &c. For Rheumatism it is not a certain cure, yet hundreds have been relieved by it when other remedies had failed.

AS AN INTERNAL MEDICINE, when taken in season it will cure Croup, Hoarseness, Sore Throat, Dry Cough, Asthma, Whooping Cough, Canker in the Mouth, Sore Lips, Inflammation of the Bowels, Dysentery, Kidney Complaint, and Cholera Morbus. The "Balsam" has also given great relief in cases of Dipotheria.

No person need fear to use this medicine, as it is PURELY VEGETABLE in its composition. It is soothing and healing in its influence, and may be given to any age or sex with perfect safety.

THE GREATEST INVENTION OF THE AGE

IS THE

COLD WATER

SELF-WASHING

SOAP.

No heating of water before you can commence to wash; no boiling your clothes after they are washed and filling the house with steam; no bluing required to make your clothes look nice and white; no washboard or machine required to remove the dirt and wear out your clothing. This Soap will do the work in one half the time, and do it better in Cold Water than any other Soap, with all the hot water and machines that can be used, and WITHOUT THE SLIGHTEST INJURY TO THE GARMENTS.

For washing Woolens, Prints, and any fabric where other soaps injure the colors, this leaves them clean and bright as new. For cleaning Jewelry, Silver and Plated Ware, Door Knobs, Paint, &c., by merely washing in the suds there is no equal to it.—Try it once, and you will use no other soap. Tell your Grocer that you want the Patent Cold Water Self-Washing Soap, made by R. E. Dwelly, 426 Eddy street, Providence, R. I., whose name will be on every bar and wrapper.

NEW ADVERTISEMENTS.

WALTHAM WATCHES.

The extensive use of these watches for the last fifteen years by Railway Conductors, Engineers and Expressmen, the most exacting of watch-wearers, has thoroughly demonstrated the strength, steadiness, durability and accuracy of the Waltham Watch. To satisfy that class in all these respects, is to decide the question as to the real value of these time-keepers.

More than 500,000 of these watches are now speaking for themselves in the pockets of the people—a proof and a guarantee of their superiority over all others.

The superior organization and great extent of the Company's Works at Waltham, enables them to produce watches at a price which renders competition futile, and those who buy any other watch merely pay from 25 to 50 per cent. more for their watches than is necessary.

These time-pieces combine every improvement that a long experience has proved of real practical use. Having had the refusal of nearly every invention in watch-making originating in this country or in Europe, only those were finally adopted which severe testing by the most skillful artisans in our works, and long use on the part of the public, demonstrated to be essential to correct and enduring time-keeping.

Among the many improvements we would particularize:

The invention and use of a centre-pinion of peculiar construction, to prevent damage to the train by the breakage of main springs, is original with the American Watch Company, who, having had the refusal of all other contrivances, adopted Fogg's patent pinion as being the best and faultless.

Hardened and tempered hair-springs, now universally admitted by Watchmakers to be the best, are used in all grades of Waltham Watches.

All Waltham Watches have dust proof caps, protecting the movement from dust, and lessening the necessity of the frequent cleaning necessary in other watches.

Our new patent stem-winder, or keyless watch is already a decided success, and a great improvement on any stem-winding watch in the American market, and by far the cheapest watch of its quality now offered to the public. To those living in portions of the United States where Watchmakers do not abound, watches with the above-mentioned improvements which tend to ensure accuracy, cleanliness, durability and convenience, must prove invaluable.

The trademarks of the various styles made by the Company are as follows:

AMERICAN WATCH Co., Waltham, Mass.
AM'N. WATCH Co., Waltham, Mass.
AMERICAN WATCH Co., Crescent St., Waltham, Mass.
APPLETON, TRACY & Co., Waltham, Mass.
AMERICAN WATCH Co., Adams st., Waltham, Mass.
WALTHAM WATCH Co., Waltham, Mass.
P. S. BARTLETT, Waltham, Mass.
WM. ELLERY, Waltham, Mass.
HOME WATCH Co., Boston, Mass.

Examine the spelling of these names carefully before buying. Any variation even of a single letter, indicates a counterfeit.

For sale by all leading Jewelers. No watches retailed by the Company.

Notice.—Any person willing to act as agent will receive a sample copy of the work *free.* As no capital is required, all desirous of genteel employment should send for the book, enclosing 10 cts. for postage, to T. W. EVANS & CO., 41 South 8th St., Philadelphia.

The Loved and Lost.

The following poem, from the Church of England Magazine, will come like a "song in the night" to many a stricken heart.

"The loved and lost!" why do we call them lost?
Because we miss them from our outward road.
God's unseen angel o'er our pathway crost,
Looked on us all, and loving them the most,
Straightway relieved them from life's weary load.

They are not lost; they are within the door
That shuts out loss and every hurtful thing,—
With angels bright, and loved ones gone before,
In their Redeemer's presence evermore,
And God himself their Lord, their Judge and King.

And this we call a loss! O selfish sorrow
Of selfish hearts! O we of little faith!
Let us all look round, some argument to borrow.
Why we in patience should await the morrow
That surely must succeed this night of death.

Aye, look upon this dreary desert path,
The thorns and thistles wheresoe'er we turn;
What trials and what tears, what wrongs and wrath,
What struggles and what strife the journey hath!
They have escaped from these and lo, we mourn.

Ask the poor sailor, when the wreck is done
Who, with his treasure strove the shore to teach,
While with the raging waves we battled on,
Was it not joy, where every joy seemed gone,
To see his loved ones landed on the beach?

A poor wayfarer, leading by the hand
A little child, had halted by the well,
To wash from off her feet the clinging sand,
And tell the tired boy of that bright land
Where, this long journey past, they longed to dwell.

When lo! the Lord, who many mansions had,
Drew near and looked upon the suffering twain,
Then pitying, spake, "Give me the little lad;
In strength renewed and glorious beauty clad,
I'll bring him with me when I come again."

Did she make answer selfishly and wrong—
"Nay, but the woes I feel he too must share!"
Or rather, bursting into grateful song,
She went her way rejoicing, and made strong
To struggle on, since he was freed from care.

We will do likewise. Death hath made no breach
In love and sympathy, in hope and trust;
No outward sigh or sound our ears can reach;
But there's an inward, spiritual speech,
That greets us still, though mortal tongues be dust.

It bids us do the work that they laid down,
Take up the song where they broke off the strain;
So journeying till we reach the heavenly town,
Where are laid up our treasures and our crown,
And our lost, loved ones will be found again.

Advice to Young Wives.

I would say to the young wife, do not imagine that because you have obtained a husband, that your attention to personal neatness and deportment may be relaxed. Now, in reality, is the time for you to exhibit superior taste and excellence in the cultivation of your address, and the becoming elegance of your appearance. If it required one little care to foster the admiration of a lover, how much more is requisite to keep yourself lovely in the eyes of him to whom there is no privacy or disguise, your hourly companion? And if it was due to your lover that you should always present to him, who proposed to wed and cherish you, a neat and lady like aspect, how much more he is entitled to a similar mark of respect, who has kept his promise with honorable fidelity, and linked all his hopes of future happiness with yours? If you can manage these matters without appearing to study them, so much the better. Some husbands are impatient at the routine of the toilette, and not unreasonably so, they possess active and energetic spirits, sorely disturbed by any waste of time. Some wives have discovered an admirable facility in dealing with this difficulty; and it is a secret which, having been discovered by some, may be known to all, and is well worth the finding out.

Fenians.

An address has been issued by the Fenian exiles to the Irish people in America, which contains a proposal for the amalgamation of the Irish societies in the United States. No doubt union is strength and it is proposed that the Confederation shall be composed of a Directory of five, to be selected from the late captives, and also of a General Council to be delegated from the different States and Territories. In order to guard against the intrusion of British spies, only ex-prisoners are eligible to become members of the council. No infraction of the laws of the United States is to be permitted. The principal object is to free Ireland, and for that purpose money will have to be collected. It is contemplated that in the event of a war between the United States, and as it is thought there will be a general European war, the Irish people, the address points out, should be ready to attack England. Orangeism is referred to, and religious conciliation is urged.

Group of school boys talking politics in the street:—

"Well he's trying to do something big. I'll bet he'll get impeached!"

"I hope he will. And if he does, I hope Sumner'll get in."

"That's so!"

"Oh, stuff! If he gets impeached, Colfax will get in."

The rest is lost in a tumult of eager argument and contradiction.

NEWPORT DAILY NEWS.

FRIDAY, March 17, 1871.

Settlement of the Eastern Question.

Russia has gained her point in the matter of the navigation of the Euxine. The conference on the eastern question has closed its labors, and the result is the abrogation of the restriction against the admission of foreign men-of-war to the Black Sea. The conference has ended just as was expected; Russia is victorious, and her request, or rather demand, is complied with, no reservation or condition being made or imposed, except that it is agreed that no one of the signatories can relieve itself of the obligations of the treaty except by the consent of the other powers.

By this Conference, Russia has gained what rightfully belonged to her. The treaty of 1856 has held her bound with chains which she has been determined to throw off, whenever events would permit. She chose her time skillfully, and has driven the matter to a successful issue with great diplomacy. So that in obtaining her end, she has also conciliated the other powers. Even the London *Times* is pleased with the result of the conference, and congratulates Europe thereon.

It seems now, as though this might be the dawn of peace for the Eastern Continent. Let the great powers now accept of memorial already presented, and disband their enormous standing armies, then we may hope that peace will be lasting.

Sharp Practice.

Gov. Clayton of Arkansas can certainly be set down as a first class politician, and if he is a thousandth part as successful, when he takes his seat in the Senate in legislating for the nation, as he has been in manoeuvering the affairs in his own State, we shall look for many important transactions.—Three weeks ago the Governor was under the sentence of impeachment; the Chief Justice was in the same condition; the members of the Senate were hiding in the woods to prevent the trial, and anarchy ruled in each department. Now the Governor is triumphantly reelected to the United States Senate. Lieut. Governor Johnson has been compelled to resign and has been appointed Secretary of State; the senate have elected as its president a warm friend of the Governor, who, while the latter is in Washington, will manage the affairs of state, and the wheels of Government once more roll on smoothly. All these changes have been brought about by the engineering of one man. Verily, if not already, Gov. Clayton may hope sometime to be a successful schemer in political affairs.

The Democratic Convention.

A fair delegation was present at Providence, yesterday, to nominate their candidates for the ensuing year. Mr. Pierce, who has held this forlorn hope for many years, peremptorily declined a renomination, feeling satisfied probably, with the empty honor he has received during past years. A vote of thanks was tendered the honorable gentleman for his long and faithful service as standard bearer in the past.

On the fifth ballot Thomas Steere, Esq., of Providence, was nominated as candidate for Governor; Charles R. Cutler, of Providence, was nominated for Lieutenant Governor; Capt. George N. Bliss, of East Providence, for Attorney General; Wm. J. Miller, of Bristol, Secretary of State, and Wm. P. Congdon, of this city, for General Treasurer.

The resolutions adopted were of the same old sort, avowing their adhesion to the old Jacksonian doctrine, which they left years ago,—condemning the Administration, and making themselves happy over the New Hampshire election.

We advise our democratic brethren to make the most of the latter affair, as they will not be likely to get another such a mouthful at present.

The English Commons.

If the picture below be an accurate one, the members of the House of Commons must be a very "common lot." Dickens never wrote anything more disgraceful in his "American Notes."

When Queen Victoria was taken as a child to witness what was called the opening of Parliament, she is said to have exclaimed to her mother as "the faithful commons" entered, "Why, mamma, they come in like naughty boys;" and it seems, according to the following description in the *Daily News*, that whatever improvements the time which has since elapsed may have worked in other respects, it has not done much toward softening the manners and customs of the lower branch of the British Legislature:

"It was now that a faint rumble was heard in the distance, and the bishops, peers, and judges were seen to turn their faces with meek amusement to the end of the chamber opposite to the throne. Then the rumble grew into a roar. Then it seemed as if some wild animal had broken loose, and other wild animals were hunting it. Then rumble and roaring was succeeded by bellows and the tramping of many feet. Then the Speaker of the House of Commons, in wig and gown, stood at the bar; and Mr. Gladstone was spat at as if by a catapult to his side. Then came a turbulent mob of heated, struggling, pushing men, who dug into each other's ribs, and made toes of no account whatever, and then the door was slammed, and it was understood that no more of the commons could be admitted. Mr. Gladstone's earnest and pained face when he turned to protest against being pounded by fists from behind him, and the helpless position he was in until the unruly mob behind him had settled into their places, are things to remember; and it is clear that every member of the lower house, wishing to present himself before his sovereign at the opening of Parliament, should first take lessons from a prize-fighter, or in the wrestling of Cumberland. Mr. Forster, Mr. Otway, and Mr. Bass struggled into good places; but there was a striking back of bald or gray heads among the representatives of the Commons who found their way to the Lords. That was a feat only to be performed by the young and strong, as many a baffled and elderly Senator found yesterday to his cost."

Now, if an English writer had occasion, which we trust he may never have, to describe such beastliness on the part of Congress, we should have been edified with a lecture on the outrageousness of "Yankee" manners from the English press all round.

Hotel Statistics.

The new Washington weekly, the *Capital*, publishes some remarks of an experienced hotel manager, Mr. T. Roessle, from which we quote the following:

Take for example the prices which we receive in the Arlington, which is a small hotel, with a capacity for no more than 325 persons.

Senator Cameron paid for himself and wife $450 per month, and had but two rooms. Senator Fenton had a parlor, two bedrooms, and an office, and paid $1,000 per month. Mr. S. S. Cox and wife paid $250 per week, and I gave him a buffet supper for 100 persons, which cost him $1,500. Mr. W. S. Huntington gave the Japanese the finest spread ever set in the Arlington Hotel; there were only twenty persons and he paid $1,000. Dr. Helmbold paid $90 per day, and his bill for two weeks was about $2,000. A parlor and three bedrooms in the second story of the Arlington, with a small family occupying them, are worth to me $450 per week during the season; and one guest here pays for a parlor, bedroom, and bathroom $500 per month.

At the Delevan House, Albany, Dr. Gautier used to pay $375 per week, and General Darling, with a parlor, three bedrooms, and four persons, paid $400. Our hotel at Lake George had 37,000 on the register last season, in four months; we took in that space of time $204,000, and the net profits were $52,000.

The Fifth Avenue Hotel in New York rents for $200,000 a year, including the stores beneath it. The St. Nicholas rents for $90,000, although it cost but $425,000. Mr. A. T. Stewart has just rented to William M. Tweed the Metropolitan Hotel, New York, for $85,000 a year, to put his son Richard Tweed, into business as a landlord; and the Lelands, who go out, paid $75,000.

The Delavan House, at Albany, where there is merely a Legislature meeting, is very profitable to Charles Leland at a rent of $55,000 a year; and for the little Stanwix Hall, at Albany, Delavan pays $23,000. Burroughs pays for the Everett Hotel, New York, $35,000, although it is small; and the Astor House rents for $75,000 a year.

The cheapest piece of hotel property, in point of rent, in this country, is the Brevoort House, New York, which rents for $27,500, and has three owners; it is kept on the European plan, excepting the "table d'hote," which it does not keep up, as it has made its reputation on the best "cuisine" in the world.

The ostentatious manner in which Victor Emmanuel has recently manifested his sympathies for France, and which is quite at variance with the indifference he displayed during the early part of the war, is accounted for by well informed Florence correspondents of German papers in this wise; Most of the bonds of the Italian government are owned in France. The necessities of the French people will compel a great many of the bondholders to throw their bonds on the market, and the indignation prevailing throughout France at the refusal of the Italian government to send an army of auxiliaries across the Alps, will, no doubt, induce a great many other bondholders to pursue the same course, which would certainly greatly embarrass the Italian treasury department. Hence, the King of Italy has been advised by his ministers to appease the wrath of the French by professing strong sympathies for them.

The Northern Pacific Railroad will soon be a living reality, and the iron horse will career, snorting and screaming, through the vast wilderness of the Northwest, which is destined soon to teem with prosperous and happy inhabitants, uniting villages and town and all the evidences of civilization and wealth. This road will prove one of the greatest works of the kind ever projected, and its influence, commercial, moral and political, upon the future of the country, must be immense. Track laying is now progressing westward from the Mississippi at the rate of one to two miles per day. The utmost energy marks the work of construction, both in Minnesota and on the Pacific coast, a large force of men being constantly employed on both divisions: 'The work goes bravely on.'

Nothing is more astonishing than the facility with which most of the French judges accommodate themselves to the political changes in their country. The bench in Paris is still occupied by the same men who proved such servile tools of the second empire. In November last, one of these judges, who, previous to the 4th of September, 1870, had been so severe on persons making anti-Bonapartist demonstration, sentenced to three weeks' imprisonment a man who, while in a state of intoxication, had repeatedly shouted on the Boulevard de Sebastol, "A bas la Republique!"

Ohio is bragging over a man with wonderful memory. He is fifty three years of age, illiterate and nearly blind, but he remembers occurrences of every day since January 1, 1827, when he was nine years old. Mention any date to him in the last forty four years, and he tells instantly what day of the week it was, what sort of weather prevailed, and what he was working at and conversed about. A gentleman who proposed a test provided himself with a journal for forty five years, and after several severe cross examinations proved the Ohioan to be correct invariably.

The New York Evening Post says Tweed has already a monument in New York. "It is the new court house. As far as men can see that—and it is loftier and more conspicuous than any statue—they see and recognize its author. If Mr. Tweed is not satisfied with that monument as it stands, let him put his name on it. It is his work; his job; and he might appropriately inscribe on its most conspicuous pillar, 'I, Tweed, did it!' and name under that line the sum he did it for."

Up to the end of 1870 there had been published in Germany 200 pamphlets on matters connected with the war; 350 historical essays or dissertations; 175 war charts and campaign plans; 860 speeches and sermons on the war, and 130 collections of battle songs and poems, while the caricatures and satires issued in this connection are innumerable. Otto Muhlbrecht, a bookseller of Vienna, has made the most complete collection of these now extant. His gathering also includes the ill-timed comicalities of France and Belgium in this direction which are now much sought after especially by the English.

The New York Tribune and certain other papers—an insignificant few by the way—call the repeal of the coal duty a 'delusion'. Those who are willing to pay three times the natural value of their coal may designate the repeal by whatever term they choose, but they cannot make the millions who are against them believe that they are either honest or correct in their opinion.

About Home.

Dollie Bidwell had a good audience at the Opera House last evening. She will perform again tonight.

EXPLANATORY.—In consequence of part of our machinery breaking, we are later in our edition today than usual.

BEAVER TAIL.—The caloric engine, operating the fog whistle at Beaver Tail Light station, gave out at 2 o'clock this morning, and was put in order again at 4 o'clock. During the interval a horn was blown by the keeper's assistant.

ALL RIGHT.—Is it not about time for people to cease their fears in regard to the strength of the Coddington School House Hall. If its power has never been tested before, it certainly was well tried last evening. Every part of the hall was literally packed, the settees were full, the aisles were filled with chairs, while the hall was lined with those who were unable to obtain seats.

PERSONAL.—Our townsman Wm. P. Congdon, Esq., is the democratic nominee for State Treasurer. He will make a good officer—if elected.

Benjamin Bateman, Esq., is confined to his house at present by severe sickness.

William Gifford, the first mate of the steamer *Electra*, who was killed at the collision near Hell Gate on Wednesday, was formerly of this city where he has many relatives now residing.

FUNERAL OF REV. FRANKLIN GAVITT.—The funeral of Rev. Franklin Gavitt was solemnized in Middletown, at 12 o'clock, today. Among the clergymen present, were Rev. Wm. Livesey, Rev. E. S. Stanley, Rev. S. C. Brown, D.D., Rev. A. A. Wright, Rev. L. B. Bates, Rev. C. H. Titus and others, whose names we did not obtain.

THE CALICO BALL.—The calico ball, given by the Newport Artillery last evening, like all other entertainments of this company, was a complete success. The dresses were gotten up in good style, presenting a great variety of unique costumes, and adding greatly to the interest of the occasion. The whole passed off to the entire satisfaction of all concerned and will long be remembered by those who participated.

ACCIDENT IN THE OLD MILL.—One of the most shocking accidents which has occurred for many years in this city, happened in the above named factory, yesterday. It seems that a small boy, named Johnny Roderick, of about eight or nine years of age, who has been employed in the place for a short time, was engaged in cleaning the machinery which is his duty to attend, called self-operating mules. He undertook to clean one of them while it was in motion, but was caught between the frame and the mule, and terribly jammed, receiving some internal bruises also. The machine was stopped immediately, when he was extricated, and carried to his home, where he was attended by Dr. Butler. The boy seemed to be in a very critical condition last night, but is somewhat easier this morning. It is thought by many that he cannot recover.

THE CANTATA.—The entertainment given at the Coddington School Hall, last evening, was emminently a success, and did great credit to both scholars and teacher. The hall was packed to overflowing, so great was the desire of fond parents and friends to listen to their children in public. The Cantata, representing every month in the year, was performed by eighty scholars from the grammar schools; and the performance was worthy of older heads. After this the High School Glee Club treated us with some of their finest Glees and the Chorus was charmingly brought in by the Grammar School scholars. The song "Freedoms Day" and the Chorus—"Flag of the Free" are especially worthy of mention. But where all was universally good we should be doing injustice to mention individual pieces or performers, we only hope that it will be repeated sometime.

We understand that the children are to have a dance in the hall tonight as a reward for their exertions last evening.

ST. PATRICKS DAY.—This is the day of all the year to our Catholic friends, and their patron saint will receive due homage throughout the land.

To appropriately commence the day High Mass was celebrated at St. Mary's Church this morning. At 1 o'clock the procession was formed according to the programme, the Redwood and Newport Bands furnishing the music, and the Aquidneck Rifles under Col. W. K. Delany, performing escort duty.

The line of march was through the principal streets of the town to the Parade, where a salute was fired, and other movements executed by the military. After which they moved on again through other streets back to Levin, when each division retired to their respective quarters.

The Redwood Band turned out twenty pieces, and considering the fact, that they have been drilling only five weeks, they did great honor to themselves. The Newport Band made a very fine appearance in their new dress and discoursed excellent music. The Aquidneck Rifles were out seventy-five strong.

The day's celebration will close with a grand civic ball by the Aquidneck Rifles, at Masonic Hall, and a reception by the St. Mary's Benevolent Society at St. Mary's Hall.

The rapidity with which he assumed an upright position was startling to the driver.

It is said that Mr. Gladstone, the English Premier, is in straightened financial circumstances. It may very well be. It is to the credit of human nature that comparatively few great statesmen in any country abuse the facilities of their exalted position for their own private advancement. They are, for the most part, in moderate circumstances and spend in their public duties more than they draw from the public purse.

The Secretary of State has made a report to Congress on the subject of immigration. It shows that during the year ending 31st of December last we received 250,273 immigrants, of whom Great Britain furnished 145,384, or over half, the Irish immigration not being reported separately; Germany, 83,516 less than one third; Sweden and Norway, 11,133. The Great Vernal Specific.

No class of Invalids are more sensitive to changes of season and variations of temperature than dyspeptics, and persons of costive habit. Tender lungs are not more easily affected by these vicissitudes than feeble stomachs. If there is a tendency in the system to indigestion, biliousness, or bowel complaints, the variable weather of early spring is almost sure to develope one or the other of these ailments. Intermittent fevers are also more prevalent in the spring months than at any other season except autumn. In view of these facts, this seems to be a proper time to invite especial attention to Hostetter's Stomach Bitters, a medicine, which for a long series of years, has proved superior to all others as a remedy for the above named disorders, and as protection against the miasm which frequently produces, and always aggravates them. It was formerly the practice to give violent cathartics as "spring medicines," but is the custom yet entirely obsolete. Nothing, however, can be more ill-judged and unphilosophical. The chilling moisture with which the air is loaded at the breaking up of winter, presses heavily upon the vital forces of the body, and reinforcement, not depletion, is what it requires.—The Bitters is a genial and excellent tonic, a moderate alterative, and just enough of an aperient to regulate, without convulsing, the bowels. It is, therefore, a specific peculiarly adapted to the present season.

Fresh Garden, Flower, Fruit, Herb, Tree & Shrub, and Evergreen Seeds, prepaid by mail, with directions for culture. Twenty-five different packets of either class for $1.00. The 2 classes $3.00.

20,000 lbs. Evergreen and Tree Seeds; Apple, Pear, Cherry, &c.; Grass Seeds; Beet, Cabbage, Carrot, Onion, Squash, Turnip, and all Vegetable and Flower Seeds, in small or large quantities; also Small Fruits, Stocks, Bulbs, Shrubs, Roses, Verbenas, &c., by mail, prepaid. New Golden Banded Japan Lily, 50c. Priced Descriptive Catalogue sent to any plain address, gratis. Agents want'd. Wholesale List to Agents, Clubs and the Trade. Seeds on commission.

FRANCE.

LONDON, March 16.

A despatch from Lille to the London Daily News, says the battle fields in the north of France threaten to become the focus of pestilence. Dead bodies are found floating in the dykes and marshes, and active measures are taken for their interment.

The London Telegraph's special despatch from Amiens says the future German army of occupation in France will consist of the Saxon and Wurtemburg corps and the Seventh Prussian corps.

There is a rumor that Ricicotti Garibaldi is in Paris.

The London Times' special correspondent at Paris telegraphs that the presence of numerous Garibaldians in Paris has a very disquieting influence upon the population.

The Times' special despatch from Paris says the French Cabinet has decided to appoint M. Valentin perfect of the Paris police. This indicates the adoption of measures for the suppression of all popular tumults. The police will, however, permit the usual mid Lent gatherings, and disturbances are feared.

An inflammatory Journal, the Ami du Peuple, appeared in Paris yesterday, and was at once seized by the police.

Councils of ministers are to be held at the Versailles perfecture.

The receptions of the foreign ministers will hereafter be held at their residences in Paris.

A proclamation has been addressed by the Minister of War to the Mobile Guards, complimenting them upon their efforts for the cause of France, and concluding as follows: "Nothing can long arrest the destinies of France. Courage! patience! and patriotism!"

GREAT BRITAIN.

LONDON, March 16.

The Times' today, in an editorial on the subject of the labors of the High Commission at Washington, anticipates an easy settlement of the Fisheries question, but is not sanguine as to an arrangement in the case of the Alabama claims. The Times expresses regret at the limited power held by the Commission.

A violent storm prevails throughout Great Britain and Ireland, and though the telegraph lines are greatly deranged it is already known that many vessels are ashore or have otherwise received much damage. Details are yet missing, and are awaited with anxiety.

The Allan steamship Prussian, Captain Dutton, from Portland March 4 touched at Moville today on her way to Liverpool.

The North German Lloid's steamship America, Captain Bussius, from New York March 4, touched at Southampton today, on the way to Bremen.

The Emperor of Austria Congratulates the Emperor William.

VIENNA, March 16.

The Emperor Francis Joseph of Austria, has despatched Count Potocki to Berlin, to salute the Emperor William upon his accession to the impartial crown of Germany.

TELEGRAMS.

HOW THE N. HAMPSHIRE ELECTIONS ARE REGARDED IN CALIFORNIA.

SAN FRANCISCO, March 16.

The California press credit the defeat of the Republicans in New Hampshire to the failure of Congress to repeal the income tax, and to reduce the taxation and expenses, and to otherwise meet the reasonable demands of the public.

GEN. GRANT TO VISIT CALIFORNIA.

SAN FRANCISCO, March 16.

A meeting of the citizens was held this afternoon to make arrangements for the proper reception of General Grant on his proposed visit to California. A resolution formally inviting him was adopted and a committee of arrangements appointed.

THE JOINT HIGH COMMISSION.

NEW YORK, March. 16.

Sessions of the Joint High Commission are held daily. A fear prevails in some quarters that the discussions have developed differences of opinion which may prevent a peaceful settlement. It is believed that the difficulty lies in the inability of the English Commissioners to meet the preliminary requirements stated by the American Commissioners as to the Alabama claims. In reply to a question today, one of the American Commissioners said significantly, that if the Commission was able to reach a conclusion at all it would do so by the middle of April.

THE NEW HAMPSHIRE ELECTION.

The Result More Doubtful than Ever.

CONCORD March 16.

Each succeeding day but tends to complicate still further the result of the recent election, and even now it is exceedingly difficult to arrive at definite conclusions. The returns received during the day make it certain that Mr. Weston lacks some 300 votes of an election; but an unfortunate fact is developed—that there is a strong probability of the house being democratic, hence insuring Mr. Weston's election by that body. The Monitor figures up 158 republicans, 159 democrats and 4 labor reformers, with sixteen towns to hear from which last year sent 4 republicans and 12 democrats. The Statesman editors claim that there is a mistake of ten in the above figures, and that really there is a tie in the representatives thus far reported, counting democrats and labor reformers against the republicans, with only three towns to hear from. The senate stands 5 to 5, with no choice in district one, and district ten so close that the result it claimed by both parties. The council stands 2 to 2, with no choice in district one.

NOTICE.

WHEREAS, the peace of the city has been disturbed by the tumultuous assemblage of boys performing on various instruments,
Therefore, in conformity to an Ordinance to Prevent Disturbances in the Public Streets, I hereby forbid all assemblages of persons creating such disturbances by performing on the toys, horns or other instruments of any kind, whereby the peace and good order of the city may be disturbed. All such offenders will be arrested and dealt with according to law.

You can see the handle—water comes with ease,
Bells, have we, and ones that'll ring,
And to your door your servant bring;
Keys, we have too, without number—
We'll fit them too without a blunder;
Skates we sharpen so you need not fall,
This pleases the children both great and small.
And now kind friends don't forget the place
For the BIG KEY is looking you in the face.

NO MORE KEROSENE LAMP EXPLOSIONS,

Perfect Safety!
THE
EXTINGUISHING GAS HINGE
BURNER,
WITH THE
CHAMPION CHIMNEY,
The Best Burner and Chimney ever put upon the market.

This Burner having an EXTINGUISHER attached, by the touching of a small lever in the side of the Burner the light is instantly extinguished, thus doing away with the old method of blowing down the chimney and endangering the lives of your family and friends by an explosion—as nine-tenths of all the Kerosene accidents in the United States have been caused by blowing down the chimney. It is also a SELF-EXTINGUISHER, as there is no possible way in which this Lamp can fall that it does not put itself out—so that there can be no fire, even if the lamp should be broken and the oil spilled.

It is supplied with a GAS TUBE, to allow the vapor and gas that may be formed in the lamp to escape, thus rendering EVERY LAMP NON-EXPLOSIVE, in all hands and under all circumstances.

The Chimney, of itself, is worth all we ask for the whole, as it is warranted not to break while in use upon the Lamp. Neither hot or cold air affects it.

Best Soil for Currants.

We never had good success with currants on light sandy soil. Although well cultivated and well manured, they never grew vigorously; bushes were small and fruit thin and imperfect size. At the end of two years we dug them up and threw them away. We believe that in such soils, as a fruit for family gardens, they can only be grown satisfactorily in the following places:

Either close to the north side of high garden fences.

In orchards or under the branches of fruit trees which overhang the garden, or by mulching.

In such warm light soils the plants must have moisture, and this must come either from deep mulching or cool shade. The mulching may be efficacious for a time, but we believe the benefits would be very lasting. The true soil for currants is a well drained clay soil, or clay and loam mixed. In this no mulch will be needed, and ordinary cultivation is amply sufficient. The finest currants we have ever seen were grown in the partial shade of apple and pear orchards, and the owners have never been affected with mildew or the currant worm. Coolness, shade, or mulching are indispensable to secure success in currant growing.

The University Medicines

are not patent medicines, but the Favorite Prescriptions of the New York Medical University, an Incorporated Institution of the State, and are prepared in consonance with the views of a number of distinguished living American practitioners, who believe that the time has come when educated physicians should make one decisive effort to overthrow the health-destroying system of quackery prevailing in every town and city, and substitute scientific, responsible remedies—made in accordance with the principles of Medical Chemistry—in place of the worthless or dangerous patent Medicines flooding the country.

A knowledge of Medicine and Chemistry, as profound as that of any physicians that have ever lived, enables us to warrant these Compounds to be the most perfect Curatives for disease ever placed before the people. What may seem almost incredible is the astonishing rapidity with which they cure diseases hitherto considered incurable.

They are combined, with great care, from fine Chemicals, with a true knowledge of their therapeutic properties and physiological effects. Nothing cheap, impure, or poisonous, has been tolerated in their composition.

They are the finest prescriptions of a body of eminent American professors, and have been thoroughly tested in one of the most extensive and successful practices of the day.

The University Medicines

are to-day sweeping the country from Maine to Mexico, becoming the leading Health Restoratives, and rapidly superseding the old poisons, nostrums, and nauseous drugs, and their sale is becoming enormous. They are now regularly prescribed by over one thousand physicians.

No Forged Certificates Required.

No medicines ever originated have received so many genuine certificates of cures in so brief a space of time. We are daily receiving letters from every part of the country, from patients and physicians, recording the most astounding cures performed by these remedies. Many of these cases had been considered beyond the power of cure. We wish that we could publish these letters for the encouragement of the afflicted, but a book of 1,000 pages would not contain them.

From our Letter-Files.

In order to convince the skeptical, we this day publish the following opinions selected from many thousands voluntarily given by intelligent, respectable people who have used the UNIVERSITY MEDICINES themselves, or in their families, as a moral guarantee that these magnificent remedies are totally unlike the patent nostrums of the hour.

SS.—Personally appeared before me, J. W. Scott, President; L. Hassert, Vice-President; John G. Howard, Treasurer; and George Powell, Secretary of the New York Medical University, and made oath upon the Holy Evangel of Almighty God, that the following are genuine, unsolicited extracts, taken from original letters being daily received at the Institution. WM. H. RIBLET, Notary Public.
Corner Ninth street and Fifth avenue, New York.

SURGEON GENERAL'S OFFICE,
WASHINGTON, March 10, 1869.
Professor—Please forward my second order for UNIVERSITY MEDICINES. I am pleased to say that I have found them of great service in the treatment of patients under my charge.
———, A. A. Surgeon, U. S. A.

250 CONGRESS ST., Portland, Me., May 1, 1870.
Professor Scott and Associates—The UNIVERSITY MEDICINES are rapidly revolutionizing the practice of medicine in Maine. * * * I have over five hundred patients. * * * Here, in Portland, I have taken away two-thirds of the doctors' patients. * * * I have nearly two hundred agents, and am establishing ten agencies a day. * * * I shall sell $100,000 worth of UNIVERSITY MEDICINES in Maine this year. * * * I am worn out with hard work. * * * I enclose you a number of certificates of great cures. * * * I will pay $1,000 if one of them can be found that is not genuine. * * *
P. STAPLES, State of Maine Agent.

MOBILE, Ala., May 3, 1870.
Gentlemen—Send us a full line of your goods by steamer as soon as possible, as we intend to make the sale of the UNIVERSITY MEDICINES a specialty, having more confidence in their curative properties than any medicines we have ever sold. In fact, we have the most unbounded belief in them, and always recommend them to our customers in preference to all others we have ever known. We have recently made some astonishing cures in Mobile of Scrofula, Catarrh, Kidney Disease, etc., with your Cancer-Plant, Lithia, Specific, etc.
L. D. & B. G. GOULD,
Druggists, thirty-five years' standing.

From a distinguished member of Congress.
WASHINGTON, May 4, 1870.
My Dear Doctor—Your medicines seem to act favorably on the nerves, as well as the blood. * * * I am much improved. * * * My limbs are wonders of medical science. * * * I have every faith in your medicine and skill. * * * I believe that you are enlightened of God to do a great work, and that you will do it. * * * You have done a great deal for me. * * * You understand your business. * * * You are the second physician whom I have confidence in. * * * I would not treat the blockheads down here to give physic to my horse. * *

BLAIRSVILLE, Pa., April 16, 1870.
To Professor Scott—Enclosed please find sketch of the case of William Carson, of this place, aged 45—Disease, indurated scrofulous ulcer of the right leg, painful and gangrenous, of 20 years' standing. It had exhausted all the skill of numerous physicians during that time.

This terrible picture was his condition on the 1st of February, 1870.

By the use of the Cancer Plant Extract, Healing Blood-and-Bone Ointment, and May-Apple Pills, he is now entirely cured.

This case has attracted remark and amazement.—He being a poor man, and one turned out to die, the medicines were furnished at cost—$15.

Besides, your Five Minute Pain Curer and Neuralgo-Rheumatic Elixir have straightened his neck, drawn to an angle of 45 degrees.

I took him in hand, while all the doctors laughed at me, and considered it a good joke to attempt to cure this poor man; but, thank God, I have cured all his maladies, restored his strength, and made him a well person with the UNIVERSITY MEDICINES.

I think, Doctor, that God has inspired you to bring forth remedies for the cure of His afflicted children that nothing in the shape of medicines has yet approached. SAMUEL K. GREEN.

1,535 THIRD AVENUE, New York, June 23, 1870.
Professor Scott and Associates—It is truly gratifying to know that science has at length triumphed over quackery. I have been using the UNIVERSITY MEDICINES in my regular practice for some time with the most remarkable success. Disease of every character rapidly succumbs to their healthful influence. You are evidently destined to overthrow the old practice of medicine.
CHAS. K. DRAPER, M. D.

Dr. Scott, &c.—For years I have suffered with Cancer of the breast. What my sufferings were, tongue can never tell. In a dying condition I came to you, and commenced using your Cancer Plant and Ointment. Almost immediately, all pain ceased.—The tumor has vanished, and through the providence of God, I am a well woman. In my deep gratitude, and from a sincere interest in the welfare of those similarly afflicted, I shall be pleased to answer all questions.
New York, Oct. 12, 1869. MRS E. CAREY.

Three bottles of your Hydrated Oxymel cured me of Consumption, although our Bridgeport physicians said that I could not be cured.
GEORGE D. REYNOLDS.
Metallic Cartridge Company, Bridgeport, Conn. March 1, 1870.

Professor Scott—Through the recommendation of C. W. Huntington, Esq., of Hartford, who has successfully used your Lithia as a remedy for disease of the Kidneys and Liver, I am induced to order some.
Unionville, Conn., Jan. 1, 1870. L. M. MASON.

Dr. Scott—Three months ago, I was attacked with Heart Disease. Our family physician pronounced it Neuralgia of the Heart, and prescribed medicine without benefit. I also ascertained that I was affected with that awful disease, Spermatorrhœa. I forthwith obtained your Ethereal Phosphorus, and after taking four bottles was completely restored. Afterward I had pain in my back, which your Lithia cured. My oldest boy had the skin disease—Herpes—and doctored five years without relief. I gave him two bottles of your Cancer Plant Extract, and, thank God, he is well. WASHINGTON TYSON,
Pottstown, Pa., Jan. 6, 1870.

Derby, Conn., Jan. 21, 1870.
Dr. Scott—I came to the conclusion that you were trying to cure people, which is more than most Doctors do nowadays. I got a bottle of Lithia for my wife's kidney disease, which none could cure, and I found it helped her immediately. D. CAMP.

Towanda, Pa., April 17, 1870.
Dr. Scott—I have used your Extract of Cancer Plant for the blood, and pronounce it the chief of alteratives. A. N. NELSON.

165 North Main St., Providence, R. I.
Professor—Some of my friends and myself have tried the UNIVERSITY MEDICINES, and found them satisfactory beyond our expectations.

From the well-known eminent Dr. Buckler Jones:
Baltimore, Md., Oct. 17, 1869.
I have a lady under my care with Cancer in the left breast. I recommended her to use your remedies, and with the most marked benefit and decided improvement in every respect.
J. BUCKLER JONES, M. D.

Ashland, Pa., 1870.
Dear Sirs—I have prescribed your Hydrated Oxymel for Bronchitis, and the Yellow Jessamine for Heart Disease, with great benefit, and am convinced of their efficacy. DR. JOHN B. KENNEDY.

Newport, R. I., Jan. 14, 1870.
"Io Triumphe" should be the motto of your medicines. They have cured me after all our Newport physicians have failed. J. W. TILLSON.

76 Temple St., Hartford, Jan. 19, 1870.
Dr. Scott & Co.—Four bottles of your Ethereal Phosphorus have acted very strengthening to my system. R. KINZEL.

VERNON, Conn., May 4, 1870.
Doctors—I obtained eight bottles of your Ethereal Phosphorus for Spermatorrhœa. I am using it according to instructions, and feel a marked improvement. The lustre of my eyes has returned, and my whole countenance is brighter. It is slowly, but surely curing me. Thanks to your wonderful medicine, it is helping me in many ways, etc., etc.
E. L. RISLEY.

FAIRPORT, Iowa, March 5, 1870.
Gentlemen—Your Katalpa Extract works magically. There is nothing equal. I have been affected with sick headache and liver complaint since last spring. Took three doses of your Headache Pills and can say they have cleaned my head out as clear as a bell. I gave the balance away, saying: "Gentlemen, be convinced—I am." DR. McKENNA.

YARMOUTH, Me., May 9, 1870.
Doctor—My mother is taking your Cancer Plant for Dropsy. Two bottles have done her more good than three years' doctoring from the best physicians of this place. * * * I hope the Lord will continue to prosper you in the good work.
MRS. SARAH A. WITTON.

55 MARKET ST., Pittsburgh, Pa., July 1, 1870.
Professor Scott—Although dispensing the UNIVERSITY MEDICINES but a short time, I am confident that where they are given a fair trial they will work wonders as curers of disease, and give general satisfaction. All the remedies are proving successful, and my practice is rapidly increasing.
J. M. YOUNG, M. D.

OFFICE BLANCHARD HAT CO.,
Palmer, Mass., May 4, 1870.
Professor—The University Medicines are effecting some remarkable cures here. Send me one dozen of Cancer Plant and Chemical Ointment.
A. B. CHAPMAN, Secretary.

PHILADELPHIA, June 23, 1870.
Professor—We have just been handed a bottle containing a piece of tapeworm, 15 feet 5 inches in length, which was brought away by the use of one bottle of Cancer Plant and the May-Apple Pills.
We also have just cured a lady of gravel of many years' standing, by using Lithia and Alkaline Resolvent. JOS. U. HARROLD.

I find the UNIVERSITY MEDICINES work like a charm in my practice.
W. WATERVILLE, Me. W. H. HOBS, M. D.

And thousands upon thousands of others. Can any other medicine show a similar record?

NEW 7-30 GOLD LOAN!

Safe! Profitable! Permanent!

JAY COOKE & CO.

Offer for Sale at Par and Accrued Interest the

First Mortgage Land Grant Gold Bonds

OF THE

Northern Pacific Railroad Co.

THESE bonds are secured, *first*, by a First Mortgage on the Railroad itself, its rolling-stock, and all equipments; *second*, by a First Mortgage on its entire Land Grant, being more than Twenty-Two Thousand Acres of Land to each mile of Road.

The Bonds are free from United States Tax; the Principal and Interest are payable in Gold—the Principal at the end of Thirty years, and the Interest Semi-annually, at the rate of SEVEN AND THREE-TENTHS PER CENT. per annum.

They are issued in denominations of $100, $500, $1,000, $5,000 and $10,000.

The Trustees under the Mortgage are Messrs. Jay Cooke, of Philadelphia, and J. Edgar Thomson, President of the Pennsylvania Central Railroad Company.

These Northern Pacific 7-30 Bonds will at all times before maturity, be received at TEN PER CENT. PREMIUM (or 1,10), in exchange for the Company's lands at their lowest cash price.

In addition to their absolute safety, these Bonds yield an income larger, we believe, than any other first class security. Persons holding United States 5-20's can, by converting them into Northern Pacifics, increase their yearly income one-third and still have a perfectly reliable investment.

HOW TO GET THEM.—Your nearest Bank or Banker will supply these Bonds in any desired amount, and of any needed denomination. Persons wishing to exchange stocks or other bonds for these, can do so with any of our Agents, who will allow the highest current price for ALL MARKETABLE SECURITIES.

Those living in localities remote from Banks, may send money, or other bonds, directly to us by express, and we will send back Northern Pacific Bonds at our own risk, and without cost to the investor.—For further information, pamphlets, maps, etc., call on or address the undersigned, or any of the Banks or Bankers employed to sell this Loan.

Carbolic Tablets,

Prepared by DR. WELLS,

The most important discovery of the age. Is this wonderful HEALING and CLEANSING agent for all diseases or weakness of the RESPIRATORY ORGANS, SORE THROAT, SUDDEN COLD, HOARSENESS, CATARRH, ASTHMA, DRYNESS of the THROAT, or WINDPIPE, DISEASE of the LUNGS and for all irritation of the mucous membrane.

All vocalists and public speakers who speak and sing without effort, use these Tablets, their effect in clearing the voice is simply astonishing as can be shown by numerous certificates.

DR. WELLS' CARBOLIC TABLETS act directly on the mucous membrane and should be promptly and freely taken in all exposure or violent change of weather, as they equalize the Circulation of the Blood and thus ward off all tendency to colds and lung difficulty.

The proprietors would say, all first-class medicines have their imitations, and they would

CAUTION the public against imposition by having other medicines thrust upon them in place of these admirable Tablets.
